ALPHA **PRO****MINIMUS CARBON 3****Zero Seams.
All Power.**

Engineered to fit like a second skin and built for explosive speed and elite-level support.

- One-Piece Power Shell
- Thermoform Composite Fit
- Ultra-Light with Max Support

ALPHA PRO

FUEL CORE**Unmatched Comfort.
Explosive Power.**

Engineered for max energy return and pressure-free comfort, the **Fuelcore Tongue** molds to your stride and keeps you locked in with every shift.

- Max Energy Return
- Pressure-Point Protection

XCL**Fast, Locked,
and Loaded.**

The **XCL Blade Holder** is designed for elite edge control and fast blade swaps. Stay agile, stay ready—every time you hit the ice.

- Quick-Release Blade System
- Precision Power Transfer
- Lightweight, Rock-Solid Stability

XCL-S | XCL-D

Dial in your glide with **Brushed Stainless XCL-S** or upgrade to **DLC Coated XCL-D** for elite edge retention and long-haul performance.

ALPHA PRO

ALPHA PRO SKATE TECHNOLOGY

MINIMUS CARBON 3

Elevate your game with the Minimus Carbon 3 One-Piece Boot. Designed for players who demand the best, this boot offers a perfect blend of power transfer and next level fit..

- Key Features:**
- **Custom Fit:** Thermoformable composite material molds precisely to your foot, providing a personalized fit that enhances comfort and reduces break-in time.
 - **Seamless Construction:** The one-piece design eliminates unnecessary seams and joints, reducing weight and increasing overall structural integrity for a more responsive feel.
 - **Enhanced Energy Transfer:** The advanced composite construction maximizes energy transfer from your foot to the ice, giving you explosive acceleration and powerful strides.
 - **Superior Support:** Engineered to provide optimal support and stability, the boot helps you maintain control during quick turns and high-speed maneuvers.
 - **Lightweight, Durable:** The rigid composite shell offers exceptional support while remaining lightweight, ensuring long-lasting performance.

FUELCORE

Experience unparalleled performance with our innovative Fuelcore Tongue, designed to elevate your game to the next level. Engineered with advanced materials, this tongue provides exceptional comfort, ensuring a snug fit that adapts to your movements, while delivering maximum energy return.

- Key Features:**
- **Enhanced Energy Transfer:** The unique construction maximizes energy return with every stride, giving you explosive speed and agility on the ice.
 - **Superior Comfort:** Highly cushioning foam reduces pressure points and enhances overall comfort, allowing you to focus on your game.

INTUITION™

Introducing the revolutionary Intuition Liner, the first of its kind in hockey skates. Designed to provide unmatched comfort, performance, and customization, the Intuition Liner sets a new standard for elite athletes and recreational players alike.

- Key Features:**
- **Lightweight** - Heat Moldable (Thermo-formable)
 - **Excellent memory** - Low shrinkage when heated, shaped and cooled
 - **Re-moldable** - High bond strength -Non-toxic -Does not absorb water

XCL

Unlock your full potential on the ice with the XCL Blade Holder, the ultimate in precision and performance. Engineered for elite players, this blade holder offers lightweight stability, responsiveness and power transfer, ensuring you stay ahead of the competition.

- Key Features:**
- **Lighweight Stability:** The XCL Blade Holder's innovative design provides a rock-solid connection between the boot and the blade, delivering superior stability and control during high-speed maneuvers.
 - **Quick Release Mechanism:** Change your blades in seconds with the easy-to-use quick release system, allowing you to adapt to different ice conditions without missing a beat.
 - **Optimized Energy Transfer:** Precision tuned stiffness maximizes energy transfer from your foot to the ice, giving you explosive acceleration and powerful strides.
 - **Durable Construction:** Built to withstand the demands of intense play, the XCL Blade Holder is crafted from high-quality materials that ensure long-lasting performance.

XCL-S | XCL-D

Premium XCL Blades in Brushed Stainless Steel (XCL-S) offer the ultimate balance of durability and performance. For next level edge retention and glide try our DLC Coated XCL-D blades.

QR7 STICK TECHNOLOGY

QR7 PRO

QR EDGE = TAPER =

QR EDGE TAPER

The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response and is more stable and plays stronger.

MINIMUS CARBON 25

MINIMUS CARBON 25

This carbon weave is a flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

PL 188 CONSTRUCTION

PL 188

A completely reengineered construction that provides improved durability and weight reduction – using lower weight fibers and thermoplastic-toughened epoxy resin that creates the consistent level of balance, weight, and durability that our pro players expect.

EDGE BLADE

EDGE BLADE

- Sharp radius on leading edge of the blade paddle
- Increases friction against the ice surface
- Enhances the flex effect of the stick
- Stick loads faster
- Shots release quicker

COVERT QR7 PRO

EDGE TAPER | Its angular design drives energy straight through the lower shaft, supercharging your shot with serious power and speed. The unique shape adds rock-solid stability, giving you a crisp, confident feel every time you let one rip.

EDGE BLADE | With a bold new shape where blade meets ice, it grips the puck like never before—making it easier to load up and unleash shots in a flash. Wrapped in ultra-light Minimus Carbon 25, it delivers elite-level feel and stays sharp shift after shift.

MINIMUS CARBON 25 | This advanced carbon weave is all about performance. It's incredibly thin, insanely light, and tough as nails—so you get a stick that's fast in your hands and fierce in the corners. Minimus Carbon 25 keeps you quick, strong, and ready for anything.

P.L. 188 | A reimagined construction method that improves durability while also reducing overall stick weight. It utilizes finer weight fibers along with a thermoplastic-toughened epoxy resin, delivering the balanced combination of lightness, toughness, and consistency expected by professional players.

O. G. SHAFT SHAPE | flat sides, rounded corners, and pure control. Whether you're dangling through traffic or dialing in a one-timer, this shape keeps your hands locked in and your game on point.

NOVIUM 2 PRO STICK TECHNOLOGY

NOVIUM 2 PRO

BEVEL TAPER

BEVEL TAPER

The unique Bevel Taper is designed to be stiffer through the taper which provides increased control and improved velocity on shots.

MINIMUS CARBON 25

MINIMUS CARBON 25

This carbon weave is a flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

RL 199

RL 199

Really Lightweight design surpasses even our lightest and strongest stick construction to date. We've taken our highest grade construction and added even higher strength fibers which are a whopping 40% higher in modulus and tensile to achieve astonishing lightweight feel and response. PL188 raises the bar on lightweight durability by combining the latest in modern composites technology and our proven manufacturing techniques.

FUELCORE ULTRA

FUELCORE ULTRA

The polymer blade core reinforced with our proprietary rib design is tough and durable and is wrapped with high-grade carbon fiber and our Minimus Carbon 25 outer weave which creates the most responsive blade in our lineup.

NOVIUM 2 PRO

BEVEL TAPER | The unique Bevel Taper is designed to be stiffer through the taper which provides unrivaled control, and accuracy. The stiff taper zone allows the stick to load higher in the shaft which creates more leverage and increased velocity on shots.

MINIMUS CARBON 25 | This carbon weave is a flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

R.L.199 | A completely re-engineered construction that provides improved durability and weight reduction by using lower weight fibers and thermoplastic-toughened epoxy resin that creates the consistent level of balance, weight, and durability that the most elite players in the world expect from a stick.

O.G. SHAFT SHAPE | Flat side walls with rounded corners provides consistent feel and control for stickhandling, shooting, and passing.

FUELCORE ULTRA | The polymer blade core reinforced with our proprietary rib design is tough and durable and is wrapped with high-grade carbon fiber and our Minimus Carbon 25 outer weave which creates the most responsive blade in our lineup.

ALPHA ONE HELMET

CORE TECHNOLOGY

TRUE ONE SHELL | **OMNISHOCK+** SYSTEM | **adaptFIT 360**

TRUE ONE SHELL | A one piece high density plastic shell provides superior stiff, strong and lightweight barrier of advanced protection. Designed to provide best in class impact diffusion coupled with a profile that is aesthetically sleek.

OMNISHOCK+ PROTECTION SYSTEM W/ VICONIC INSERTS | Focused impact zones on the frontal lobe, temples and occipital are enhanced with a lightweight diffusion plate called Viconic. Viconic absorbs multiple impacts both linear and twisting. The Impax soft touch foam shield and the Viconic pods are special elements designed for specific small and large impacts. The OmniShock+ system is enhanced hockey helmet design.

ADAPTFIT 360 BY BOA | The AdaptFit 360 provides fit equalization all around your head with the micro adjustment of a BOA dial.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.

CORE TECHNOLOGY

CUSTOM FIT INSERT **IMPAX** **OCCIPITAL LOCK 8**
FOAM

CUSTOM FIT INSERTS | Heat moldable inserts in the front and back of the helmet allow for a custom fit for each individual player, providing the perfect fit no matter the head shape. Dialing in the perfect fit is not just about comfort, it is also Step 1 in protection. The CF 100 is the ultimate combination of fit, comfort and protection.

LINER | EPP liner is the foundation to providing lightweight protection against all impacts. IMPAX foam zones over the temples provide an additional level of protection against hits and other impacts.

SNAP FLAPS | Traditional tool-less adjustment system to properly fit the helmet, hassle free.

COOLING VENTS | Integrated within the helmet shell, our unique vent design directs air flow thru the helmet and around the player's head to help stay cool out on the ice.

LEG PADS

- **Advanced Fastening System** | Engineered with precision-built knee and calf blocks calf secured by rigid C-shape HyperComp brackets, this system elevates pad stability and slide efficiency. By minimizing shifting during butterfly transitions and locking in a consistent ice seal, it maximizes goaltender performance with every movement.
- One-Piece core construction combined with ultra-stiff HyperComp thigh rise panels delivers an uncompromising seal to the ice and explosive rebound control.
- Designed for mobility, the boot's 90-degree flex profile enables effortless skateability and fluid entry into RVH, empowering goalies to stay reactive and anchored in critical moments.
- Cutting-edge SlidePlates minimize ice friction for lightning-fast lateral slides without sacrificing energy. The removable design adds customizability for goalies seeking optimal inertia and enhanced slide control under pressure.
- Fully adjustable strapping at the knee, calf, and boot allows for precise tuning. Goalies can personalize pad rotation, butterfly mechanics, and leg channel tension—ensuring a locked-in, responsive fit tailored to individual playing styles.

BLOCKER COMPARISON

MID CURVE

Curve starts in mid section of the board

HIGH CURVE

Curve starts in upper section of the board

SURGE MID CURVE BLOCKER

- Mid Curve (MC) Strategically engineered with a MC profile activates from the board's centerline, this shape ramps up puck elevation—sending rebounds high and out of danger zones with each save. The elevated upper section aggressively cuts off shooting angles to prevent pucks from passing by, giving goaltenders the tactical edge in both containment and counterattack.
- Pro Protection reinforced with HyperComp panels and high-grade internals to launch rebounds out of harms way.
- ProPalmX | Tested and trusted by pros, the Ax Suede palm with additional printed grip grip combines premium feel with long-lasting durability. It's the palm that keeps pace with the game.
- Strategically placed X-Foam padding around the index finger adds a vital layer of impact resistance, elevating protection without sacrificing comfort—perfect for unpredictable deflections and scrambles in close quarters.
- The open cuff configuration enhances range of motion for quick saves and confident puckhandling. Whether deflecting with precision or executing breakout passes, this design keeps the wrist free and tactical play sharp.

S30 JR. BLOCKER

- High Curve (HC) Designed for pinpoint rebound control, the HC profile features a flat face through the lower two-thirds of the board to deliver fast, predictable puck deflection every time. The upper curvature cuts the angle and eliminates pucks just passing above the blocker.
- Adjustable finger protection for personalized protection
- AxSuede materials with adjustable wrist strap

RITUAL X5 CHEST & ARM TECHNOLOGY

R\X5^{RTL}

CoverEDGE+

Shoulder floaters maximize coverage and stopping power with HyperComp reinforced build with no pectoral break. Removable pad allows for built in customization of shoulder height.

AxyFlex2

Ultimate streamlined arm design that maximizes mobility without sacrificing protection.

Perfect fit

Easy Velcro adjustments at the shoulders, backplate, sides and torso.

Bone System

Complete protection during RVH and on poor angle shots. Neoprene connectors between triceps, elbow and forearm pads to close gaps and keep the arm securely inside the arm sleeve.

R\X5 RTL

COVERT QR

Low-Kick Flex Profile | Quick Release for fast plays and effortless ability to launch high passes.

Asymmetrical Shaft Geometry | Enhanced bottom hand control, leverage and accuracy with increased durability strength against heavy puck impacts.

Minimus Carbon 25 | This carbon weave is flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The weave is thin and super light, yet extremely strong and resistant to damage.

SlideGrip Technology | ViTextured shoulder for additional grip and rebound control. Matte finish shaft reduces friction for easy blocker transitions into the shooting and pokecheck position.

Hi-Fused Construction | Super light balanced feel for efficient blockerhand movements.

R\F2 PRO

XFOAM

OUR MOST ADVANCED IMPACT ABSORBING FOAM PROVIDES A TARGETED BARRIER ON IMPACTS TO THE FOREHEAD AND WORKS IN CONJUNCTION WITH THE OUTER SHELL TO PROTECT AGAINST INJURY.

IMPAX FOAM

DUAL DENSITIES OF OUR PREMIUM IMPACT ABSORBING FOAM PROVIDE THE OPTIMAL BALANCE OF PROTECTION, COMFORT AND WEIGHT REDUCTION.

FANTOM FIT

ULTIMATE COMFORT ACHIEVED THROUGH OPTIMUM FIT CHARACTERISTICS.

OMNISHOCK+ SYSTEM

A HOLISTIC APPROACH TO HEAD PROTECTION FOCUSED ON SAFETY FIRST. ALL SHELL AND LINER COMPOSITIONS ARE INTEGRATED BY DESIGN. A COMBINATION OF X FOAM AND DUAL-DENSITY MOLDED IMPAX FOAMS, THE OMNISHOCK+ DESIGN PROVIDES ULTIMATE PROTECTION AGAINST PUCK IMPACTS AND COLLISIONS WITHIN THE CREASE.

CHIN MOBILITY

THE R/F2 CHIN MAXIMIZES MOBILITY WITHOUT SACRIFICING PROTECTION SO THE GOALIE CAN EFFICIENTLY MOVE THEIR HEAD WITH MINIMAL CHEST PROTECTOR INTERFERENCE. THIS MAKES TRACKING PUCKS INTO THE BODY AND WATCHING PLAYS BEHIND THE NET EFFORTLESS.

R\F2 PRO MASK (CERTIFIED/NON-CERTIFIED)
